

Family & Children Sessions

HoW iT wOrKs

Family or children sessions are an amazing way to capture a family's love for one another or the cuteness of your kiddo! These sessions take as long as we need to get plenty of excellent shots for your online proofing gallery. Family/Children galleries typically contain 20-35 photos. When you book a session with me you may select a location that has a special meaning to you or we can work together to find the perfect spot! You are welcome to come with a variety of posing ideas, props or anything that you want to use to make your photos reflect your family or the style of session you want for your little one. If you prefer I can direct the show--either way we will be creative and have fun. For family clothing I recommend coordinating outfits that are comfortable and reflect your family's style. A combination of prints and solids look great together. For children's clothing bring plenty of options and any outfits that have special meaning. When booking lets avoid nap times and meal times, we want all participants to love me. =) You are welcome to change outfits during the session as often as you need. When shooting a family session I take whole group, parents, sibling, and individual portraits. I always ask that the family have in mind the different groupings they want captured, so we are sure to make your session exactly what you are looking for! A laid back and fun experience is what all photography sessions should be, and this will be my goal with your family or child!
