Want the best of both worlds?

By purchasing a package instead of a senior session you will receive both quality prints as well as the digital copies from your session with print release!

In today's world we are all digital savvy and want to preserve our memories through digital files! As a photographer I respect my client's wishes and offer a digital senior purchasing option.

However, I know everyone prefers higher quality prints. So through my package options I offer the best of both worlds! By purchasing a package you get both quality prints as well as your digital files!

Packages also include products that can not be purchased Ala-Carte, so you are acquiring unique products. Seniors these days send out announcements as unique as they are! By purchasing a package you are given a choice from photo template announcements that are customized just for you! These announcements are only available to seniors who purchase a package option. To purchase a package you will place the order directly with me. I then order and deliver your items to you. I accept cash, check or credit card through PAYPAL. I am also happy to set up payment plans based on individual need.

So don't wait and lets get you the best of both worlds so you have prints to be proud of and the ability to preserve your digital files!
