

Family & Children Sessions

HoW iT wOrKs

Family and children sessions are an amazing way to capture a family's love for one another, to document a growing family, and to capture the cuteness of children! These sessions take as long as we need to get plenty of excellent shots for your online proofing gallery. These galleries typically contain around 25 photos (extended family sessions contain many more photos). When you book a session with me you may select a location that has a special meaning to you, or we can work together to find the perfect spot! I am willing to travel for a nominal fee if I am traveling more than 25 miles from my home. You are encouraged to come with a variety of posing ideas, props, or anything that you want to use to make your photos reflect your family or the style of session you want. Together we will be creative and have fun. For family clothing I recommend coordinating outfits that are comfortable and reflect your family's style. A combination of prints and solids look great together.

When booking let's avoid nap times and mealtimes, we want all participants to love me. When shooting a session, I take a variety of shots, but I also ask that the you have in mind different groupings you want captured. This helps ensure your session is exactly what you are looking for! A laid back and fun experience is what all photography sessions should be, and this is always my goal! Let's visit more if you are interested in a dynamic and affordable photography experience!
